Partial differential equation - Wikipedia

https://en.wikipedia.org/wiki/Partial_differential_equations

In mathematics, a **partial differential equation** (PDE) is a **differential equation** that contains unknown multivariable functions and their partial derivatives.

First order differential equations - Khan Academy

<https://www.khanacademy.org/math/differential-equations/first...>

Exponential functions are described by **differential equations** of the general form $dy/dx=ky$, i.e. **equations** where the derivative is proportional to the function.
